WHAT'S NEW IN DECIDE?

Last month, **we organized a dynamic training and learning mobility program for our staff and youth participants** that took place in dates 5-11.11.2023 in Święta Katarzyna in Poland, and we're delighted to announce that it was a tremendous success.

During the mobility initiative, our young participants and youth workers had the invaluable opportunity to expand their competencies in various areas crucial for the labour market. The program focused on developing skills that are not only relevant in the present job market, but also on honing capabilities that will be in demand in the future. We are passionate about equipping our community with the tools they need to thrive in their professional journeys. We also had the chance to test project outputs - web app and self evaluation tool.

We believe that investing in the growth and development of our community is key to creating a positive impact, and we are committed to providing opportunities for continuous learning and skill-building.

We are thrilled to announce that we are diving headfirst into the heart of the program, actively and sharply developing specific competences. Our participants are engaged in hands-on activities, workshops, and learning sessions designed to enhance their skill sets and empower them to excel in their chosen fields.

Stay tuned for more updates as we progress through this enriching journey together. Thank you for your ongoing support!

NOVIČNIK

KAJ JE NOVEGA V PROJEKTU?

Prejšnji mesec smo **organizirali dinamičen program usposabljanja in učne mobilnosti za naše osebe in mlade udeležence**, ki je potekal od 5. do 11. 11. 2023 v Święti Katarzyni na Poljskem. Med mobilnostjo so imeli naši mladi udeleženci in mladinski delavci priložnost razširiti svoje kompetence na različnih področjih, ključnih za trg dela. Program je bil osredotočen na razvijanje veščin, ki so pomembne na trgu dela ter na izpopolnjevanju sposobnosti, po katerih bo povpraševanje v prihodnosti. Opremiti želimo našo skupnost z orodji, ki jih potrebujejo za uspeh na svojih poklicnih poteh. Imeli smo tudi priložnost preizkusiti rezultate projekta – spletno aplikacijo in orodje za samoocenjevanje. Verjamemo, da je vlaganje v rast in razvoj skupnosti ključnega pomena za ustvarjanje pozitivnega učinka, zato smo predani zagotavljanju priložnosti za nenehno učenje in izpopolnjevanje veščin.

Z veseljem sporočamo, da intenzivno razvijamo specifične kompetence. Naši udeleženci so vključeni v praktične dejavnosti, delavnice in učne ure, namenjene izboljšanju njihovih naborov spretnosti in opolnomočenju, da se izkažejo na svojih izbranih področjih.

Spremljajte nas za več posodobitev, ko skupaj napredujemo na tem potovanju. Hvala za vašo podporo!
